

# HITS!

In the Second Round of auditions, you will have the opportunity to sing a 90 second acapella rendition of a potential song from our show. We encourage you to listen to the original recordings on the Spotify playlist linked below. We have outlined which songs are designated for Male/Female and those songs specifically geared to our younger auditionees; however, we welcome you to sing any song on the list that you feel showcases your style, range, and overall vocal ability.
